Wedding Day Shot List

We look forward to working with you on your wedding day! This shot list is being provided as a guide for you and your photographer. Please know that there are a ton of amazing photos we will take. We did not include specifics on candid photos or ceremony details but they will of course be documented.

If you don't want a photo on the list, please cross it out. If there are shots you want to add, please list them in the addition section but please be mindful about how many additions you have.

We want you to be pleased with your wedding photos so this is a very helpful guide for our photographers, however please note that this is not a legal document stating that all photos on this list will be taken.

Once your shot list is ready, please e-mail it back to hamilton@hamiltonphotography.net
